### The Play

Given by

### The United Ladies' Aid

Last Friday the 10th. Feb.

Was A Huge Success And Well attended

Last Friday evening the I.O.O.F. Hall was the scene of much merriment and pleasure when a large number of people watched the "play" of all "Lead Talent" put on by the United Ladies' Aid, the play was entitled, "The Busy Ladies' Aid"

The following was the cast for the play:

#### CAST OF CHARACTERS

Mrs. Christopher Asterlie—Pres. Ladies' Aid—Mrs. M.D. Schornert  
Mariana Poppett—Vice Pres. Ladies' Aid—Mrs. E. Thompson  
Hortense Buckett—Secretary of Ladies' Aid—Mrs. Werts  
Wilhelmina Wilson—Treasurer Ladies' Aid—Mrs. James  
Virginia Valentine—Who keeps the stationery store and sells newspapers  
Susannah Wiggins—The I Told You So's—Miss Matson  
Georgina Pinkett—Mrs. Pollitt  
Sally Sycamore—The Minister's Two Daughters—Margaret Allen  
Sara Sycamore—Gladys Fisher  
Gloriana Kisseem—Com. on New Piano for Church—Mrs. Hanna  
Della Dapiles—Com. on New Fence around church—Miss M. Calder  
Pegrita Perkins—Who dwells in New Dresses—Mrs. Gage  
Amaranta Money—Com. on New China for Parsonage—Mrs. Bell  
Carolina DoMot—Who expects to play new Piano—Miss Sadie James  
Rev. Sals Sycamore—Our New Minister—Mr. Gage  
Abraham Lincoln Sycamore—The Minister's Son—Mr. Bertie Bateman  
Charles Swift—Of the Burdett Review—Mr. R. Setters

#### MUSICAL NUMBERS

- 1 Our Busy Ladies' Aid..... Opening Chorus
- 2 The New Piano..... Swift and Chorus
- 3 The Reason Why..... Duct Virginia and Lurch
- 4 Clipping, Clipping, Clipping..... Ladies Aid with
- 5 We Told You So..... The I Told You So's
- 6 Waiting on the Ladies..... Walters Chorus
- 7 Isn't it too Provoking..... Chorus Ladies Aid
- 8 Now We're Happy..... Final Chorus

Certainly everyone did their part well and seemed to thoroughly enjoy it, just as much as the audience did. The dresses and bonnets of the Ladies were decidedly unique, representing Past, Present, and Future Fashions, so that it was no wonder that the Newspaper representative of the "Burdett Review" Mr. Charles Swift, gave the Ladies the flattering compliments that he did, and it was quite evident that the Ladies appreciated it too, by their blushes and smiles. Mr. Sycamore was a very fortunate man to have such a hustling, busy lot of Ladies to look after him and incidentally "Manage" him, all the Ladies of the audience are going to gain authority in the same way after this, just a pair of scissors and two words "Grasshoppers and Hopkinds" will shudder and obey. Great credit is due to each and every one of the part in which he or she took part, it would be impossible to pick out any particular one as to their excellence in acting, as each "acted" their part so exceedingly well that it made the best of fun and pleasure all through.

At the close of the play, after singing God save the King, the Ladies served lunch to all the crowd there, which was a very unexpected treat, everyone partaking of the nice hot coffee and sandwiches amidst much talk, thus affording many old acquaintances a chance to renew their acquaintanceship once again and have a real nice social time.

The "Burdett Review" feels highly honored as being the one newspaper chosen by this "Busy Ladies' Aid" and brought into the play in which Compton from the Burdett Review would bring them in the much desired Piano. And should prosperous times come again to Bow Island, the management of the Bow Island and Burdett Reviews promises them just such a means as shown in the above play, to obtain a "First Class Organ or Piano", they will always find the Reviews ready to cooperate most heartily and friendly at any time with them.

We heard that it is proposed to put on the same play again at Winnifred and Burdett, as soon as possible, we heartily hope to see the same actors appear again in Bow Island, as their acting was exceedingly good.

Any person who was unfortunate enough not to have been able to see Bow Island's play entitled "The Busy Ladies' Aid" should make a strong endeavor to go and take the whole family to see it, if it is put on again.

Quite a good crowd attended the Card Party given by the Anglican Ladies Aid, on Tuesday night at the G.W.V.A. Hall.

Ladies' First, Mrs. C.H. Bell  
Ladies' Booby Mr. Ed. Thompson  
Gent's First Mr. J. Halloran  
Gent's Booby Mr. W.A. Bateman

### Alice Calder Dies,

Only 12 years and 8 months

We much regret to announce the death, last Monday morning of little Alice Calder, the 12 year old daughter of Mr. and Mrs. Robert Calder, who live about 1 1/2 miles south east of town. The cause of her death was Rheumatic Fever.

We also much regret to say, that her sister May is also very ill with Inflammatory Rheumatism—we do sincerely hope that she may get better. Dr. Cairnes is attending.

The sad funeral of little Alice Calder took place on Wednesday at the United Church, amidst a large crowd of relatives, friends and little schoolmates.

The Rev. C.G. Hickin officiated. The coffin was white with silver trimmings, emblem of purity and sweetness, surrounded by lovely flowers in the shape of wreaths, crosses sprays etc. from her own parents, teachers and sisters, aunt and uncles, one lovely spray was from her little schoolmates and teacher, while many others came from neighboring friends.

All took one last look at the little face for the last time, then past the coffin in the United Church, where a very sad service had been held, from there they proceeded to the cemetery six boys acted as pall bearers, under the guidance of Mr. Hurst, a large number of companions carried the mourners and sympathizers to the grave-side intense sympathy is felt for the sorrowing parents and family.

The Review tenders its deepest and sincerest sympathy with the bereaved and sorrowing parents Mr. and Mrs. Robert Calder and the other members of the family. May the Divine spirit tenderly soothe them in this their great hour of affliction and pour Healing and Heavenly Balm on their wounded hearts.

#### CARD OF THANKS

We take this opportunity to thank our friends for the many expressions of sympathy and kindness extended to us in our sad bereavement, also for beautiful flowers sent. Mr. and Mrs. Robert Calder and family

### Bow Island

Mr. and Mrs. McKenna left on Thursday the 16th. on the evenings train to attend the concert given by Daniel Burt and his associate orchestra at Medicine Hat.

Mr. McDaniel of Whitla was in town on business Thursday.

The regular meeting of the U.F.A. met in the G.W.V.A. Hall Thursday evening, a good crowd was out, L.D. James in the chair, after the business meeting was over the floor was cleared and dancing took up the balance of the evening, join the U.F.A. and have good fun.

Mr. Egan who has been on the sick list for the past month is able to be up again.

Edith Kisseem has a severe attack of Whooping Cough, Dr. Cairnes was called in last Monday and expects she will be up in a few days.

BORN—To Mr. and Mrs. Albert Simpson, Feb. 12, 1922 a son, mother and baby are reported doing nicely.

Mr. E.C. Dick was a week end visit to Medicine Hat.

Owing to the cold and stormy weather there were not many out to the dance given by the Curling Club last Thursday evening.

### BOW ISLAND

We much regret to report that Mrs. John Martin has been quite ill with erysipelas following a bad cold, we feel that the best of medical skill is being given to her as she is under Dr. Cairnes' skilful care.

The latest report, before going to press, is that Mrs. Martin is improving nicely.

Mr. T. Burns of Burdett was a Bow Island business visitor Thursday.

Last Sunday was Father's and Son's Sunday, the Tuxis Boys all took part in the evening service. The song service was led by the Orchestra and was conducted by Alton Ross.

Sadie James entertained to dinner on Sunday, Hugh and Frances Ross, Margaret Calder and Howard Nevins. A dance was given at the Landsell school house last Friday evening, there was a large crowd out and there was splendid music, a nice lunch was served about midnight, after which dancing continued, "Home Sweet Home" Waltz was played about 3 o'clock everyone then departed and all report a splendid time.

Mr. J.R. Perry was a visitor to Grassy Lake last week end.

Mrs. J.K. Shuster is visiting her daughter Mrs. Bell for a couple of weeks. Mrs. J.K. Shuster is an old time resident of Bow Island, and will be welcomed by all her former friends here.

Mrs. H.J. Schlegel and children who have again on the sick list lately are better again now, we are glad to report.

Mr. and Mrs. E.A. Nevins took in the Concert last Friday night.

Mrs. Peever was the chosen delegate to go to Lethbridge last week, to represent the Rebecca's Lodge from Bow Island, Mrs. Peever left on the Saturday night train.

We are pleased to report that Mrs. Headner is a lot better from her attack of Tonsillitis.

Her son Leonard is in a visit with Mr. and Mrs. Headner.

Ed. Thompson was by Mr. R.H. Robertson, J.P., fined \$1.00 and costs for operating a motor vehicle without having 1922 license plates.

Archie Hoaglin, who was also up on a charge of operating a motor vehicle without the 1922 license, was let off as he had applied for his license.

Paul Gates of Bow Island appeared before Mr. Lomas, J.P., at Bow Island, on the charge of operating his car at Burdett without the 1922 license plates. He was fined \$1.00 with costs and ordered to secure the necessary plates in three days, Geo. O. Bettle of Tuxis was ordered by the same J.P. to pay \$2.00 with costs, for leaving his car out at Burdett without this year's license plates.

### United Church Bow Island

Sunday School Session  
11 a.m. Sunday School Session  
7:30 p.m. Preaching and Song Service

You are invited to attend  
C.G. Hickin, Pastor

### All Saints' Sunday School

There will be Sunday School at 3 p.m. every Sunday afternoon.

Children of all ages are invited to attend. Come and help swell the attendance.

All children not attending any Sunday School are heartily invited to attend with the children already attending to All Saints' Sunday School, Bow Island.

It is not wished to take children away from any other Sunday School to which they already belong.

The Sunday School habit is a good one. None are too old or too learned not to need more knowledge of God's Word.

See a thought, reap an action.  
See an action, reap a habit.  
See a habit, reap a character.  
See a character, reap a destiny.

## U. F. A. Debate (Continued from front page)

In a good many respects taking road  
work for instance, the Govt. had a  
system to work by where Municipal  
Districts had not, therefore Governments  
can always arrive at something  
definite whereas Municipalities cannot.  
He also said that the taxes in unorga-  
nized territory were not as high as in  
an organized.

Mr. James speaking next said that a  
Govt. Relief Agent was not nearly as  
desirable as a Municipal one as he  
always gives away whatever is asked  
for irrespective of whether it is really  
needed or not by the applicant, whilst  
a local councillor can always find out  
whether the circumstances call for relief  
or not.

Mr. Miller then spoke and said that the  
Municipality when dealing on the  
relief could in nearly every case wait  
until the farmer had lost most of his  
stock before giving relief but the Govt.  
would make a grant for feed before the  
stock lost its strength therefore it was  
beneficial to the farmer in that it  
spared the lives of his stock.

Then Mr. Schomert spoke and he  
said that he thought that he should  
be speaking on the opposite side, he  
said the Govt. in case of sickness or  
death that they would not give relief  
but that organized Districts did in  
case of such urgent necessity.

Mr. Lavigne remarked that the  
Municipalities failed to produce roads  
as promised, to give relief in times of  
distress, and that taxes were higher in  
organized districts than unorganized.

He also said that the schools were  
very inconvenient and that Govt. did  
not give away anything unless it was  
absolutely needed.

After the debate a short dance was  
held, the senior and junior members of  
the U.F.A. supplying the music, this  
was kept up until 12 o'clock when  
"Home Sweet Home", was played  
highlighting the well spent evening to a  
close.

## Start Distribution Seed Grain Monday

Arrangements Made to Help  
Needy Farmers in Orga-  
nized Districts

## FEED OATS TO BE AVAILABLE

Plan of Distribution To Be  
Followed in Unorganized  
Districts

## TELEGRAM

"The Review" worked late at night  
for the Farmers' sake to Set Up and  
Print the following Telegram which  
was only received on Thursday and  
the "Reviews" are printed on Thursday  
Elmington, Alta.  
March 16th, 1922

To The Review, Bow Island

URGENT.—Distribution of  
Seed Grain under the auspices of the  
Provincial Agriculture Department  
will commence next Monday morning  
and agents of the Department will be  
placed at Central Points in unorga-  
nized territory to take charge of the  
distribution, full arrangements have  
been made by the Agriculture Dept.  
for this service in Organized Muni-  
cipalities where the farmers are unable  
finance purchase of Seed Grain and  
Feed required for Spring Work the  
Municipal Department of the Govt.  
will assist the Council of the Municipality  
to secure money required for this work  
and Farmers within the Municipality  
should apply to the Council for what  
ever aid they may require in this regard

Arrangements have also been com-  
pleted by the Agriculture Department  
with the Grain Companies for the  
securing of Feed Oats under these  
arrangements, Feed Oats can be secured  
by any Farmers requiring same up to  
the amount of Four Hundred bushels  
where he is in a position to finance  
the purchase of same, the price charged  
for these Oats will be on the basis of  
Port William spot price less freight  
from Alberta, which averages 12 1/2  
cents per bushel and plus 1 cent per  
bushel where delivery is taken at these  
Oats in car lots or truck

Where the Elevator Company is  
required to look after the Distribution  
from the car and take care of weighing,  
and assume responsibility for any  
shortage that may occur in connection  
with Distribution, a charge of 2 1/2  
cents per bushel will be made and  
where oats are unloaded through the  
Local Elevator and Distributed in  
small lots as required a charge of four  
cents per bushel will be made for this  
service

Feed on Credit.—In Unorganized  
Districts where farmers are unable to  
finance the purchase of Feed Oats  
required the Agents of the Agriculture  
Department are authorized to issue  
orders on the local mill or elevator  
taking security from the farmer and  
may advance 125 bushels to any farmer  
operating a quarter section of land  
or 250 bushels to any farmer operating  
a half section of land. In no case will  
this Limit of 250 bushels of Feed Oats  
be exceeded even where farmers are  
working more than a half section

Municipalities who wish to secure the  
benefit of shipment of Feed Oats on  
Free Rate should apply to the  
Agriculture Department for Certifi-  
cates giving same stating the quantity  
of Feed Oats required for elevators and  
paddy and from whom purchased and  
point of delivery the arrangements  
made with the Grain Co's is that they  
will ship Oats to points in Southern  
Alberta as required to meet the de-  
mands paying full freight at regular  
rates on same and will then bill the  
Agriculture Department with this  
freight on the basis of the cost of  
Distribution as received from the  
Department. If several Farmers wish  
to combine in securing Oats and take  
delivery off track, they may make  
the arrangements with what Agent Local  
Elevator then notify the Department  
where they are to be forwarded authorizing the agent  
of the Elevator Company to deliver the  
Oats required by the Department  
with freight on same

Individuals who require less than  
can load lots and wish to purchase  
same have local elevator should apply  
to the Agricultural Department with  
same order will be issued authorizing  
the local agent of the elevator com-  
pany to deliver oats to them and  
charge freight to the Government

C. G. GHOFF

## Creston, News

The weather had moderated and the  
snow was melting fast. The first part  
of last week and all seemed to think  
that spring was here in earnest when  
the small boys had ventured out on  
the dry places with their marbles but  
there was a sudden change last Sun-  
day and again the hills are capped  
with snow and spring has been post-  
poned indefinitely

Mr. George Bruce dropped from  
Macedon to his home in Creston  
off and spent a day in this City  
visiting and attending to some  
business on the trip

Circuit Court was in session here  
last week, one case seemed to attract  
special attention, one party sued  
another party for allowing time  
tortoise to damage his orchard to the  
extent of close to one thousand dollars  
the case was in the Judge's hand at  
this writing

Timbers are being hauled for the  
construction of a bridge connecting  
up with the town. River bridge  
the road is to be changed from the  
main bridge to the old K.V.R.R. bed.  
This gives a shorter route to the  
"Students' Settlement" and will be  
much appreciated by that community

The dance given by the Banff  
Orchestra was well attended and all  
report a good time

A dance will be given in honor of  
St. Patrick at the Parish Hall on the  
night of the 17th. March, under the  
auspices of the Ladies of the Catholic  
Church

The supper given by the Women's  
Institute last week was one of the  
most successful social events of the  
season

The Canyon City Lumber Co. dis-  
abled one of its camp last week as the  
roads had broken up so as to stop the  
log hauling, they have a fine lot of  
logs at their mill which is running at  
full capacity, this winter has been  
unusually good for logging

Several homeowners are in the  
Valley this week, and the local land  
men report several sales

The C.P.R. has put in a heated car  
twice a week service and apples still  
continue to be shipped from this Valley

## NOTICE

NOTICE is hereby given that, in  
accordance with the provisions of The  
Irrigation Act, the undersigned has  
filed the necessary memorial and plans  
required by Section 13 and 15 of the  
said Act, with the Commissioner of  
Irrigation at Calgary, Alberta.

The applicant applies for the right  
to divert sufficient water from the  
South Saskatchewan river at a point  
on the northwest quarter of section 7,  
township 12, Range 10, West of the  
4th. Meridian, for irrigation purposes,  
and for the right to construct the  
necessary works, as shown by the  
memorial and plans filed, to enable  
the water so diverted to be used for  
the said irrigation purposes, on the  
following lands, viz: Southwest, North  
west and Northwest quarters of section  
7 and the Southeast quarter of section  
18, in township 12, Range 10, West  
of the 4th. meridian.

DATED at Bow Island, Alta., this  
10th. day of November, 1921

W. Bruce Manders  
Applicant

On this little square spot, contain-  
ing the weather report and keep it on  
a file, for reference any time next year  
so that you can look back and see  
what the preceding years have been

## The Weather March 1922

Temperatures taken in the morning  
about 8 o'clock

Friday 16th. 34 above, sunny

Saturday 17th. 39 " snowing

Sunday 18th. 32 " Sunny and windy

Monday 19th. 31 " Cloudy and windy

Tuesday 14th. 32 " Warmer

Wednesday 15th. 33 " Cloudy with rain during the night

Thursday 16th. 38 " Very dull

# Is There Danger To The Farmers' Stock From TUBERCULOSIS

The following letter from a live  
Farmer, written to the "Market  
Examiner" shows there is "Possibly  
Hidden Dangers" in Feed we give to  
our Stock.

This is such a "Vital" question for  
all Farmers, that the "Bow Island and  
Bowditch Review" be glad to  
receive Letters from any of our  
Farmers, as to their experience and  
results of any of their "Feeding  
Methods" and what "Feeds" they  
used?

What Methods and Feeds do You  
use?

So for the sake of your fellow  
Farmers and for the great Brotherhood  
of Man, don't delay but let us have  
"Your experience" and what You  
would advise which may be highly  
valued and Highly Thought of by the  
whole Community.

In all sincerity and piety, I say  
"God help us all, we need to work  
together for "each other's knowledge  
and benefit," for by that alone shall  
we ever succeed in this or any other  
cause, so no one move let us hear  
from You!

Editors, Market Examiner: I have  
read with much interest the article  
by Mr. Hutton and Mr. Leavitt on the  
trench or pit silo. Mr. Leavitt is very  
enthusiastic, and no wonder after his  
previous experiences. It is one of the  
principal topics of conversation in this  
district at present, as many of our  
farmers, finding it difficult to solve  
the winter feed problem, have declared  
their intention of making a pit this  
year.

Now I would like to ask through  
your paper if any Experiments have  
been made or Tests conducted at Ex-  
perimental Farms or elsewhere to de-  
termine what effect the Feeding of  
large quantities of Silage has on the  
health of Stock rearing it?

Often times I have read of cows fed  
on Ensilage being lost as mad, or but-  
ter, and having costs like silk, etc.  
This looks well in print, but the practical  
stockman knows that it does not  
necessarily follow that because an  
animal is blooming, she is in the best  
of health, often the reverse is the  
case and such an animal may have  
Tuberculosis.

In Derbyshire, England, where I  
farmed before coming here, the Farmers  
used brewers grain principally to  
increase the flow of milk and it was  
very noticeable that the man who  
was the Heaviest User was he who  
always lost the most cows through  
Tuberculosis or "Gripes" as it was  
locally called.

The method of storing these grains  
is practically the same as recom-  
mended for Sunflowers, Corn, etc., in  
the pit silo. Many a day have I spent  
treating grains. One winter we used  
some 50 percent more than usual, the  
price being low that winter. Out of  
40 head lost out of six of our best cows  
with Tuberculosis after which we  
discarded the grains altogether, and  
our losses practically ceased.

The trouble was attributed to the  
excessive amount of Acid contained in  
the grains due to Fermentation.  
Through the chemical analysis of Sun-  
flower, Corn, and O.P.V., is somewhat  
different to that of brewer's grain,  
there is no doubt but what Fermenta-  
tion takes place more or less, according  
to the method and care taken in storing  
the grains.

I have been considering making  
silo, but would like to satisfy myself  
as to whether it would be a case of  
Ensilage and Tuberculosis, or no ensila-  
ge and a Clean Bill of Health

Perhaps Mr. Hutton could give some  
information on this point.

Yours truly,  
A. H. Bowler

Sedgewick, March 2, 1922.

For this week we have no infor-  
mation for Mr. Bowler, but next issue  
we will have something on the subject.  
So far there has not been any general  
complaint regarding Tuberculosis or  
"Gripes" or "Bugs," but it is a point

that should be "cleared" up. There  
are a great many people who are con-  
sidering trench silos for the coming  
year, just as they are in the Sedgewick  
district, and those having Experiences  
with feeding Ensilage are asked to  
write us, telling what the results have  
been, if it had any tendency to  
develop the disease. There is a strong  
effort being made to eradicate the  
disease, and natural conditions in  
Alberta are favorable to its elimination  
and "we don't want to start any sys-  
tem of Feeding" which will prove a  
setback in this regard. We will have  
some information for Mr. Bowler next  
week, and in the meantime invite  
letters on the subject—Editors,  
Examiner.

Don't forget to write to Your Own  
Home Paper, the "Bow Island and  
Bowditch Review"

Chemistry and Agriculture  
THE READING HABIT  
(Explanatory Paragraphs)

The hope of the future of Canadian  
Agriculture lies, in a very large  
measure, in the fact that our Farmers  
as a class are readers of articles,  
bulletins and reports dealing with  
matters pertaining to the science and  
practice of farming. Furthermore,  
we venture to say they are for the  
most part readers with open minds,  
anxious to learn and, as far as cir-  
cumstances permit, to put into practice  
that which appeals to them as sound  
reasoning.

These statements may appear to  
some as decidedly optimistic but that  
they are not extravagant nor wide of  
the mark is the opinion of one who for  
more than thirty years has had an  
excellent opportunity of learning at  
first hand, the thought and aspirations  
of the Canadian farmer.

If statistics could be obtained, it  
would most probably be found that as  
regards the volume of its Agricultural  
Literature in active circulation  
Canada, considering her farming  
population, stands ahead of all countries.  
And there would not be this large  
output if there were not a demand for it. If such be the case  
we may conclude that apart from  
economic considerations, our prospects  
for progress, for more efficient and  
more profitable farming are good.

The purpose of these few paragraphs  
is to stimulate and encourage the  
reading habit and particularly the  
reading by the young and young women  
on the farm of matters per-  
taining to the Chemistry of Agriculture.  
The "facts" that chemistry  
reveals bear directly on foundation  
problems, such as the Maintenance  
and increase of Soil Fertility, the  
economic production of larger yields  
of farm crops, the Nutritive value  
of Forage plants and Feeding Stuffs,  
the nature and use of manures and fertilizers  
etc. etc. There is scarcely a  
question in connection with Soils,  
Crops and Stock that Chemistry does  
not in some light upon. The more  
one reads the more one is impressed  
with the fact that Chemistry offers  
most valuable information on practically  
every phase of Farming and that  
this information may be made  
use of in a very direct way by the  
man on the land to his Profit and  
Advantage.

Our plan therefore is for more  
reading, careful, thoughtful reading.  
Acquire the habit of devoting fifteen  
minutes a day to the bulletin and  
reports of our agricultural institutions  
and the more educational articles and  
papers in the agricultural press. This  
material, in which this Dominion  
abounds, can be readily understood by  
any intelligent person; it does not  
need a scientific education to unravel  
its meaning. Much of it can be obtained  
for the asking. Its personal will  
make farm work more interesting and,  
if put into practice, more lucrative.  
Acquire the habit and you will never  
regret it.

Dr. Frank T. Shutt,  
Dominion Chemist.

# Winter Sports in Quebec

1. The Chateau slide. 2. Dog sleighing at Kent House; on the left Miss K. Fox, winner of the race.

With the object of making Quebec the leading winter sport city on this continent, a very attractive and varied programme of matches, races, and competitions is being arranged for the season of 1921-22, and visitors to this beautiful and romantic city will have a wonderful opportunity of witnessing or participating in skis, hockey games, snowshoes, tramp, curling matches, skating events, ski-joring, indoor and outdoor festivities and entertainments, all in a historic setting without parallel in North America.

The Chateau Frontenac, which is the traditional social centre of the city, is co-operating heartily by the contribution not only of a triple chute toboggan slide on Dufferin Terrace, a ski jump on Citadel Hill, a skating rink adjoining the hotel, and a curling rink in the Palm Court of the hotel, but also offering cups for competition between amateur hockey clubs and snowshoe clubs of the city as well as individual prizes for the various sporting events.

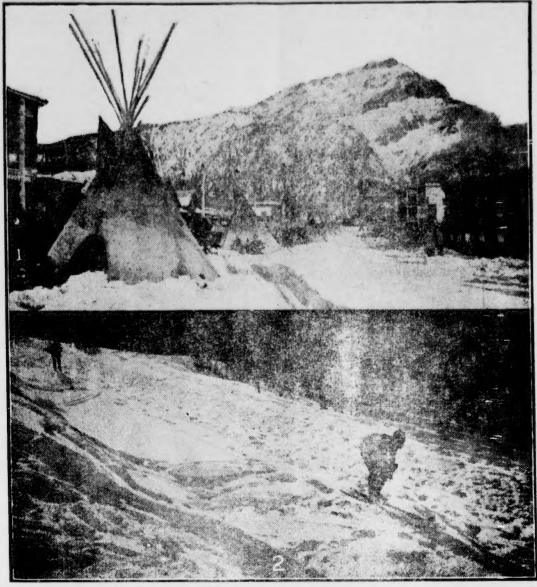

The whole city, with its lively streets, its skating rinks, its beautiful Battlefields Park on the Plains of Abraham, its proximity to quaint old French-Canadian villages and natural scenery of spectacular beauty such as Montmorency Falls, its atmosphere of hospitality and gaiety and charm, offers to those who love to tramp on snowshoes or glide on skis, or hurtle down on toboggans, or drive, wrapped in furs, to the finger of the sleigh bells, a choice of out-door winter recreation such as would be difficult to rival anywhere.

The population of Quebec revels in its glorious winter. The Quebec child takes to snowshoes, and very soon after that graduates to skates on a toboggan or skis. As the years pass, he or she joins a club and plays hockey, and many with the approach of maturity learn to wield with 200 yards of the hotel.

the broom and the curling stone, and "sweep her up." A dog sleigh is a step on the ladder to a sleigh drawn by a fast trotter.

Winter sport is thus native to Quebec. The snowshoes and skis clubs extend to visitors cordial invitations to their outings which are always most interesting and enjoyable affairs. A big curling bonspiel and charm, offers to those who love to tramp on snowshoes or glide on skis, or hurtle down on toboggans, or drive, wrapped in furs, to the finger of the sleigh bells, a choice of out-door winter recreation such as would be difficult to rival anywhere.

# BANFF WINTER CARNIVAL

(1) Indian Trenches arranged down the Main Street at Banff. (2) The Ski Slide at Banff.

In a setting of snow-capped mountains and sombre pine on the heart of the Rockies, Banff, Alberta, was at its best for the sixth annual winter carnival, which opened on January 28th. Under ideal weather conditions the wonderfully all-around was gay and smiling for the event.

Banff, the main street, was typical of the mid-west in the unique arrangement of larches and pine trees. Each tent was gaily named. Indian fashion with elk bear hoof and head and fantastic designs. Flags fluttered bravely in the breeze on the gay highway leading to the crowning feature, the monster ice palace. It is built at the entrance to the new bridge across the Bow river, directly in front of the museum. In a setting of snowy pines, the spectacular palace takes the form of an old English gateway, forming a great ice-wall, 60 feet wide, across the street with drives through it wide enough to allow motors to pass. The central tower is 20 feet high and the side towers are 18 feet high. About 500 blocks of ice, each 44 inches by 22 by 36, 100 pounds each were taken from the Bow river for the construction of the glistering gateway. Passing through the palace gates, roads lead up Spray avenue to the C. P. R. Club, to the Fair and North of Sulphur Mountain and to the Auditorium.

That the scene at the Banff Winter Sports Association, "Let's Go," was headlined by people from Vancouver to Montreal was evidenced from the registration at the various hotels. Winter jugglers were everywhere in evidence in the banter coats in their brilliant covering the furs, the unassisted feet, the bright sweaters, sporting boules toboggan costumes, skating suits. There were Mounted Police in smart uniforms, pioneers in good old wolf-fur coats, Indians in gorgeous beaded costumes, the north, south, east and west all mingling in a happy comradeship in God's great out-of-doors.

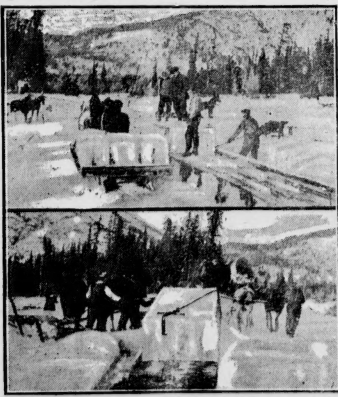

Looking up Tunnel mountain it seemed that one of the most exhilarating of winter sports was planned for extra thrills. The slide is constructed on the natural slope of Tunnel mountain and runs directly down Carlton street, a distance of about half a mile, marked all the way by flags, ferns to the trees, giving a bright note of color to the landscape.

Banff has become one of the most prominent ski-centres on the continent. The spectacular ski-hill on Tunnel mountain was the scene of some important events in which many of international fame took part. Snow shoe parties were one of the popular forms of sport, and were to the various favorite spots with the variety of international fame took part.

Shuffle parties were one of the popular forms of sport, and were to the various favorite spots with the variety of international fame took part.

The variety of attractions kept everyone in the real carnival spirit in the wood chopping contests, the winter races, the sleigh dog races, the tree shooting, the Indian over snow when the Indians, old and new, were out in great splendor. The carnival guests busy. It all was done to declare that in summer to come to Banff, rich in color and traditions, is one of the world's most various national playgrounds.

## ICE INDUSTRY AT BANFF

ICE OPERATIONS ON BOW RIVER AT BANFF.

The winter season at Banff, Alberta, gives opportunity for the promotion of an extensive ice-industry. It is unique as the only industry of its kind west of Seattle, Manitoba. The ice-field on the Bow river is a hive of industry in the winter time. It is a tract two miles in length and is leased for ten years. Operations begin as soon as the river freezes over, in the case of the river and the ice is cut by a saw to keep the space clear of snow. The ice is marked by a line two inches deep into cakes 22 by 44 inches. An ice channel is made at one side of the river and the cakes are floated up to a bench for loading. About 60 men are employed on the work each season and they use such implements as a splitting bar, a spike-pole for directing the slices up the ice channel, an ice saw for sawing the cakes 22 inches down, and

allowing a two-inch mark that is made early in the season around each piece. An ice needle is used for splitting the blocks at the bench and the ice monkey grasps the cakes out of the ice channel and carries them up for loading. Ten cakes at a time are floated down the ice channel, each weighing about 300 pounds. The output is about 25 cars a day and will be about thirty thousand tons for the season. Each car holds 44 tons, and is shipped over British Columbia is thus supplied with ice. It is used in the Okanagan Valley, at Kamloops, and the coast cities. It is of great service in helping for British Columbia fruit such as in refrigerated cars, and is the purest ice as the purest ice that can be obtained—C. G.

## Sir Ernest Shackleton Dies En Route To Southern Polar Seas

Montevideo, Uruguay—Sir Ernest Shackleton, the British explorer, died on board the steamship Quest, on which he was making a reconnaissance expedition into the Antarctic region.

Death was due to angina pectoris and occurred when the Quest was off the Gricevick station.

The body was brought to Montevideo on board a Norwegian steamer and will be taken by another steamer to Europe.

Captain L. Husey, of the Quest, will accompany the body home.

Professor Greville and the other members of the explorer's party will continue the expedition.

Sir Ernest died on the morning of January 8, Sir Ernest began to sink rapidly and despite all efforts by his attendants, he died within three minutes.

The startling news of Sir Ernest Shackleton's death spread rapidly through the town.

The body of the explorer was taken to the morgue to be examined by the local authorities.

### Russia May Side With Germany

Paris—The French government, because of information received from Berlin, is much preoccupied by what it considers the possibility of an agreement between the German and Russian Soviet Government with a view to forcing consideration of a revision of the peace treaties at the coming Genoa conference, it was indicated at the foreign office here.

That office had been advised that Earl Radk, of the Soviet diplomatic force, was in Berlin, together with several other Soviet representatives engaged in conference with representatives of the German government.

### WESTERN EDITORS

#### BURIAL OF THE POPE

ELABORATE CEREMONIES MARK FUNERAL OF LATE PONTIFF

Rome—Pope Benedict XV. was entombed with solemn and impressive ceremonies. His body, encased in three caskets and dressed in Pontifical robes, lies in a crypt under the great basilica of St. Peter's to the right of the entrance. The historic and beautiful ritual was witnessed only by members of the Sacred College, members of the Pontifical household and the Papal nobility and diplomatic accredited to the Vatican.

The great bronze doors of St. Peter's had been closed at noon, cutting off the stream of humanity which for more than three days had been passing before the catafalque where the body lay in state.

The ceremony began with the removal of the body from the chapel of the Holy Sacrament to the chapel of the choir. It rested upon a bier which was borne upon the shoulders of the re-robed ushers whose usual functions are to carry the Pope in the sedia statorum, their own positions. The funeral cortege was headed by the Vatican clergy, bearing torches and chanting the anthem Exultate Domino.

On either side of the bier stood members of the Swiss Guards, Palatine Guards and the papal gendarmes. As the procession moved, the choir of the Chapel Julius, in flowing robes, sang the Miserere.

The casket was then transferred to the crypt in the left lateral nave near the right entrance to St. Peter's, last of the pontiffs to be buried there. The XV. was left to his rest beneath the flagstones which are trod by thousands of pilgrims annually.

### HON. MEIGHEN ELECTED

FORMER PRIME MINISTER SECURES LARGE MAJORITY IN BYELECTION

Ottawa, Ont.—Right Hon. Arthur Meighen was returned to parliament by a majority of 1,620 votes over his opponent, A. K. Patterson, the Progressive nominee, his only contestant in the voting in the Grenville County by-election.

The complete returns gave Mr. Meighen 425 votes and Mr. Patterson, 2318. The total vote was 90 per cent. of that polled in the recent federal election in this riding, when 8,723 electors went to the polls.

At that occasion, A. C. Caselman, the successful Conservative candidate, obtained a majority of 2,313 over P. A. McIntosh, the Liberal candidate, and 1,535 over G. A. Payne, the Progressive standard bearer.

The reason given for the comparatively small vote throughout the riding is that the Liberals, not having a candidate in the field, took very little interest in the election and failed to cast their votes.

Mr. Meighen expressed himself as highly gratified with the result and voiced his appreciation of support from Conservatives and Liberals alike.

No Unemployment in France

Montreal—Zephyrus Hebert, president of the local board of trade, addressing the Wholesale Merchandise Brokers' Association here, asserted that there was practically no unemployment in France, a country from which he had just returned.

Every one there was working and as a result there was a gradual rehabilitation of the country, though it was not taxation that made the Canadian income tax look tiny.

Rites For Russia

Stockholm.—Swedish newspapers assert that a plot has been revealed to ship into Sweden in the middle of the month of January 17, as wholly alleged to have been sold to the Soviet authorities through Swedish intermediaries. The rifles are said to have come originally from Germany, but are believed to have been held in storage in Denmark for some time.

More Employment in Britain

London.—A quarter of a million fewer people were registered in Great Britain at the end of the year 1922 than were registered at the end of the year 1921. The number of men employed on government and municipal schemes and emergency work totals 124,000.

Gratitude Connected With Work in West For Many Years

Winning—Right Rev. John Grisdale, D.D., former Bishop of Qu'Appelle, whose long connection with the life of Western Canada dates from 1875 and who died here on Friday night aged 76. He was born at Bolton, Lancashire, England, June 25 1846. He was elected Bishop of Qu'Appelle in 1896. His retirement took place about ten years ago.

Decceased reached Manitoba in May, 1922, and took over St. Andrew's parsonage, on the Red River, in the midst of a rainstorm. During his half century in the country, Bishop Grisdale took the deepest interest in all that concerned the welfare of the church in the northwest. He was constant in the first meeting of the synod of the undivided diocese of Rupert's Land. He was in 1915 a delegate to the first meeting of the provincial synod, to which he was thereafter a delegate continuously.

The Bishop of Qu'Appelle, then Dean, was a member of the first conference of the consolidation of the church in the Dominion. He was a delegate to the first session of the general synod in Canada and sat as chairman of the house of delegates for the first four years.

His work for education, hand in hand with his church work, was continued in Saskatchewan. In 1907 he was elected a senator of Saskatchewan University.

Germany Buy British Warships

Berlin.—A big German firm, according to the Aht Ueberlandblatt, has purchased about thirty British warships for demolition. Its object is to provide raw material for German industries. The price is reported to have been about \$500,000 sterling.

U. S. Wheat Growers Have Plans To Revive Wheat Pool

Washington.—A strong movement for revival of the United States grain corporation to pool the wheat of the country and purchase it as in the war period, is on among United States wheat growers. Not only is sentiment for this reflected in the agricultural conference at present in session, but numerous bills for legislation are reaching Congress from wheat States.

The demand is that the government buy the wheat crop at a price which will cover cost of production plus reasonable profit. It is probable the plan will be blocked in Congress, though it has powerful support.

Recommendation against any proposition looking toward prices fixing on agricultural products was made by a subcommittee of the committee on marketing of farm products in the

agricultural conference. This decision was reached only after a strong fight by advocates of the price fixing proposition.

Proposals looking to the development of United States agriculture as a self-sustaining industry were considered by the National Agricultural Production and Marketing Commission. It was recommended that a subcommittee be appointed to study the situation and to work on suggested measures to relieve the present acute situation and provide for general rehabilitation.

Reduction of freight rates was recommended by a subcommittee on transportation. The committee declared that prices paid railroad labor and that of other industries was much greater than returns received by agricultural labor for a readjustment was necessary.

—Brooklyn Eagle

### Sir James Craig

#### Hopeful For Future Peace Of Ireland

##### Fight Clause In Liquor Act

Montreal—The clause in the Quebec Liquor Act that holds that a man is responsible for the misdeeds of his wife if she illegally sells liquor, is being attacked by Saluste Lavery, K.C., acting on behalf of James Ingram, a sailor, who is at present serving a month in jail because his wife sold liquor while he was on the high seas. Ingram took out habeas corpus proceedings against the sentence, but these were quashed by Mr. Justice Bruneau in the Supreme Court. The case has now been taken to appeal and the Attorney-General has been called in to defend the clause in question.

Belmont—Sir James Craig, speaking at a Unionist committee luncheon, said both he and Michael Collins would be faithful to the agreement they reached at the recent important conference. At this conference, the Premier of Ulster and Collins, as head of the provisional government of Southern Ireland, came to an understanding regarding the boundary question, the lifting of the boycott of Ulster and other matters. Incidentally, Sir James said the negotiations had been difficult from his standpoint because he could not agree to any reduction of the aggregate area of Ulster from the fixed under the act of 1920.

Sir James, who was making his first public statement with regard to this conference, said when he entered into the discussion, he had no idea of arriving at a "can't compromise you" situation. "I can't compromise you," said Sir James, "that he and I will be faithful to the bargain we made at the end of 1920."

Describing his conference with Mr. Collins, Sir James said:

"We sat three hours and discussed only the question of the maintenance of the status of the future of our country. I said to him: 'Can we come to some agreement—an agreement not favorable to you and not favorable to me—some agreement which will allow the horrors of the past, calm down the people, try to encourage the best elements throughout the whole of Ireland, and then leave the road open in some future time for the United people to choose whether they will come into your free state or not?'"

"It is for you to decide on coercion, on maintaining war or irritation. Don't let me interfere, but let me know what we have got to do."

"Can't we do something different to us to prevent a recurrence of the disturbances, disorders and scandals which have been committed in the name of liberty in the past?"

BC. Entitled to More Members

Increase in Population Gives Province Two Extra Representatives

Ottawa.—The increase of 150,000 in the population of British Columbia in census returns will also mean increased representation from the province in the House of Commons following the next redistribution. At present British Columbia sends 12 members to the House. Its population of 225,000 will entitle it to 15 members, an increase of two over the present representation.

Germany Buy British Warships

Berlin.—A big German firm, according to the Aht Ueberlandblatt, has purchased about thirty British warships for demolition. Its object is to provide raw material for German industries. The price is reported to have been about \$500,000 sterling.

U. S. Wheat Growers Have Plans To Revive Wheat Pool

Washington.—A strong movement for revival of the United States grain corporation to pool the wheat of the country and purchase it as in the war period, is on among United States wheat growers. Not only is sentiment for this reflected in the agricultural conference at present in session, but numerous bills for legislation are reaching Congress from wheat States.

The demand is that the government buy the wheat crop at a price which will cover cost of production plus reasonable profit. It is probable the plan will be blocked in Congress, though it has powerful support.

Recommendation against any proposition looking toward prices fixing on agricultural products was made by a subcommittee of the committee on marketing of farm products in the

agricultural conference. This decision was reached only after a strong fight by advocates of the price fixing proposition.

Proposals looking to the development of United States agriculture as a self-sustaining industry were considered by the National Agricultural Production and Marketing Commission. It was recommended that a subcommittee be appointed to study the situation and to work on suggested measures to relieve the present acute situation and provide for general rehabilitation.

Reduction of freight rates was recommended by a subcommittee on transportation. The committee declared that prices paid railroad labor and that of other industries was much greater than returns received by agricultural labor for a readjustment was necessary.

### Mine Strikers Discharged

Negotiations in South Africa Result in Discharge of Strikers

Johannesburg.—Notices were posted in the coal and gold mines in the Rand district announcing that all strikers had been discharged as a result of the deadlock in negotiations between the employers and the miners.

London.—At the present time there is not the slightest sign of wavering by either side in the coal and gold and gold miners in South Africa, says a Reuter cable from Johannesburg.

With the protraction of the dispute more bitterness is creeping into the men's speeches.

The chamber of mines officials endeavored to reassure the workers there was no idea of removing the color bar.

Winning Woman President

Winnipeg.—At the annual meeting of the Canadian National Institute for the Blind, western division, held here, Mrs. W. Sanford Evans, of Winnipeg, was chosen president for the ensuing year.

Chancellor Wirth Speaks On General Financial Situation In Germany

Berlin.—The Reichstag, including the public galleries, was crowded to hear Chancellor Wirth's statement on the general situation in Germany. The chancellor began by defining his foreign policy as embracing the fulfillment as far as possible of Germany's treaty obligations, with the conviction that only actual delinquency could render it possible to ascertain Germany's paying capacity and that only the economic consequences of such delinquency could enlighten the world as to the real nature of the obligations on account of reparations assumed by Germany.

Dr. Wirth paid tribute to Dr. Walter Rathenau's services, which had been appreciated by the house. He then proceeded:

"At Cannes we were enabled for the first time to set forth freely and not by way of question and answer, Germany's true situation. We hope that a more exacting examination of the world's economic problems at Genoa will result in increasing the appreciation of the real significance of reparations."

He said he was confident that the world would be able to understand the situation of Germany.

He said he was confident that the world would be able to understand the situation of Germany.

### SUSPEND WORK ON DRYDOCK

CONSTRUCTION COMPANY AT VANCOUVER STATE NO

Vancouver, B.C.—In announcing that a formal request had been received from the government to suspend work on the drydock, the Wallace Construction Company stated that no reason was given, but that it was understood the new administration wished to review the form of contract.

The company was being constructed under the drydock subsidies act. The subsidy was for four and a half per cent. on the cost of the project, \$2,500,000 for 35 years. The work has not progressed very far beyond the preliminary stages.

## NEWS IN BRIEF

## Receives Offer to Shine in Opera

VANCOUVER—Sudney Melton, wounded overseas man who has been kicking out a precarious living addressing in envelopes and doing other clerical jobs for months, has attracted the notice of operatic promoters by his rich tenor voice, and has left for Chicago, where he will undergo training at the expense of a well known impresario.

## Replace Horses With Tractors in Artillery

TORONTO—A special cable to the Mill and Empire from London says: The London Daily News understands that the war office is substituting motor tractors for horses in every branch of the royal artillery. The change will enable the government to make a 10 per cent. reduction in the personnel.

NEW YORK—Alleged to have poured boiling water over her husband and two children as they slept, Mrs. Tillie Mildred appeared before Magistrate Powell at Coney Island, on a charge of felonious assault and threatened, pending the outcome of the injuries her husband and children had received. According to the police Mr. Mildred admitted to the scalding charge but explained she had only intended to scare her husband so he would stay home more.

## NEWS IN BRIEF

## Wheat Jumps in Price

This week an advance of 0.12 cents a bushel on wheat was recorded in Chicago, also great advances of prices at Liverpool and many other points.

## Gordon of Jeff Davis, Purchases Faffus Necklace

PARIS.—The celebrated pearl necklace which once belonged to Maria Theresa, queen of Hungary, and which has been on display here, has been bought by Jefferson Davis Cohn, of England, for £200,000.

Former Emperor Charles of Austria-Hungary received the valuable heirloom in Switzerland preparatory to leaving the country by airplane in his last attempt to regain his throne.

(Jefferson Davis Cohn is a grandson of Jefferson Davis, who was president of the Confederate States of America.)

## C. P. R. Water Supplies to be improved at Bow Island

BOW ISLAND.—The C.P.R. have announced that the Water Supplies at Bow Island are to be improved, with a view to meeting the demands of increased traffic which may be expected.

## With the Red Coats at Macleod

MACLEOD.—Last Tuesday the red coats at Macleod, the Mounted Police gave a splendid Entertainment and an "At Home" to their hosts of friends. Everything was done on a superb scale and "right up to the minute" with bugles calling and the men in Scarlet and Gold uniforms, lovely women in most beautiful costumes, sweetest music and splendid dancing in a gorgeous hall dazzling in a bill-hurry of light and color, and then the supper which can only be described as a Banquet without any equal in the whole history of Macleod.

The Review has pleasure in saying, "That is the way our brave lads in Scarlet and Gold behave in doing things." Through all this day.

Are they like that young Highland Chief, Lord Lovick, who

"No legends in Love  
No distants in War"

RAYMOND.—Last Wednesday the Rev. St. James' entered in the "Baby Show" held here today. They must have been as healthy and as pleasant a sight as anyone could wish to see—even the Doctor who led the judging, Doctor Greenway said "they were as fine an exhibit of babies as could be found in any community, with not one organic fault in any of the 25 babies."

## Utah Senator's Plan is Treated as Big Joke

QUEBEC.—"That is the biggest joke over the wires in a century," said Premier Taschereau to the Canadian Press, when he was told of the plan put forward at Washington by Senator King of Utah, for Canada to give up a portion of the province in exchange for a partnership in the proposed St. Lawrence waterway.

## Drops Dead On Leaving Bank

SHEEP HERDER CASHES CHECK AT SWEET GRASS. THEN SUFFERS

SWEET GRASS, COUTS.—A Mr. Mueller who has been herding sheep for Pat Buckley this winter a few miles west of Sweet Grass, came into the First International Bank here last Friday and cashed a cheque. On turning to leave the bank he fell dead of heart failure, as is now supposed. The bank has been closed to the public until further instructions for the removal of the body to another room from the county coroner at St. Mary's.

Mr. Mueller is little known here, but appears to be well dressed and had all the marks of a gentleman, and a man to be trusted. No relatives or close acquainted friends of the man are to be found in town.

## Railway News in Brief

Windsor, Ont.—R. C. Rice, C.P.R. ticket agent, has relinquished his duties here, after 11 years' service, and has gone to Florida for a three months' vacation, as he has not enjoyed the best of health. He is succeeded by W. A. Armstrong, of 17 years in the ticket office of the railway company in Toronto.

Kentville, N.S.—The Dominion Atlantic Railway has moved 105,000 barrels of grain to the coast for export. There are still approximately 500,000 barrels left for export. From the beginning of the season 1,490 more cars of apples were moved than for the corresponding period last year.

St. John, N.B.—During the present week the Canadian Pacific has hauled 2,045 cars of grain containing 2,250,000 bushels which have been unloaded to the elevator at West St. John, as compared with 1,661 cars with 1,473,000 bushels during the corresponding season last year. The elevators at West St. John still contain a million and a half bushels of grain.

The new Canadian Pacific Steamship "Montcalm" which sailed from St. John and Liverpool, is insured with motion pictures on board ship has proven a big success since its inauguration last summer and has met with the same popularity and appreciation by passengers as other Canadian Pacific features. The fine dining saloon is characteristically Canadian in subject and treatment.

Victoria, B.C.—There are no better known golf courses in the Dominion than those at Victoria on Vancouver Island, no doubt due to the fact that the game is played every day in the year. It is, therefore, come as a pleasant announcement to know that the Canadian Pacific Railway has arranged arrangements whereby guests of the Empress Hotel at Victoria will be accorded playing privileges on the excellent 18-hole Colville course.

Winnipeg, Man.—Miss Hazel Tomkins, candidate of the Canadian Pacific Railway employees, is queen of the Winnipeg winter carnival. When the voting contest closed Miss Tomkins had 27,555,000 votes to her credit. Miss Kathryn McTaggart, candidate of the Canadian National employees, carried 12,227,000 votes and Miss Esther Cummings of the Toronto Dominion party, third with 12,454,000. There were 50,000 votes cast in all to finance the carnival, each heard bearing a voting coupon.

There has been more than usual interest manifested since the announcement, first made by the Canadian Pacific in December, and then by the international Eucharistic Congress which is to be held in Montreal in May. The Canadian Pacific, associated with La Compagnie Francaise de Tourisme, is organizing a personally conducted pilgrimage trip to the central district of the Holy Land, including the well-known Canadian priest, The pilgrimage of Italy and France, with special optional tours to the Palestine Pilgrimage of the Holy Land, the battlefields of the Great War.

Edmonton, Alta.—Demonstrations on raising the banner type of a value of dairy cows on the farm and the value of sheep are being given from the train that has been outfitted by the Alberta Government and is now on tour of the province. The train itself is provided by the C.P.R. and has Mrs. Acheson, C.P.R. agricultural representative in charge. Representing the Provincial Government, S. G. Carlyle, live stock commissioner, is in charge of this work. The speakers include Mr. Carlyle, Guy Herbert, Medicine Hat; G. H. G. Hutton, Calgary; Professor A. A. Dowell, Captain Latimer, University of Alberta; W. L. Carlyle, Calgary and Mr. Morrison of the Dominion Live Stock Veterinary Service.

Montreal, Que.—J. J. Sullivan, for many years well known here as chief engineer for the C.P.R., was elected president of the Engineering Institute of Canada, at the annual meeting of that body. Mr. Sullivan succeeds the retiring president, J. M. R. Fairbairn, president of engineer of the C.P.R. In his valedictory address Mr. Fairbairn said that past year had been a serious one for engineers, following the recession from the feverish war emergency and he hoped the turning point had been reached. The depression had been particularly hard on the younger members of the profession. Despite the difficult period, the institute, for the first time in its history showed a surplus, \$10,000, on the year's operation.

## Indian Nationalists Stoned the Police Station—Further Details of Chauri Rioting

ALLAHABAD, India. Details of last Saturday's rioting at Chauri on the Bengal northwestern railway when 17 native policemen were killed showed that the crowd of nationalist volunteers and local Indians first stoned the police station and then attacked it with clubs and spears. The police were driven out and beaten to death and their bodies after being soaked in oil were burned.

## NEWS IN BRIEF

## Super-Phone Now Makes its bow

Simple Attachment for Telephones Made for Secrecy in Conversations

WASHINGTON.—The Super-Phone, an apparently simple attachment for telephones which is said to secure absolute secrecy of communication and security from interruptions and make possible multiplex telephony, was demonstrated yesterday in the office of the chief signal officer of the United States army. It was shown that one telephone line to which Super-Phones were attached could be used for a number of conversations simultaneously and that no speakers could hear or interrupt another pair.

The principles involved in the invention are the same as in "wireless," "It was explained high frequency currents being employed."

## Medicine Hat Man Killed

MEDICINE HAT.—Thomas Howard who was struck by a Canadian Pacific Railroad yard engine late last Friday afternoon, died during the night at the General Hospital. He was a resident of this city for 35 years.

## Prisoner Chopped Head in Coll Wall

Head pending the arrival of an escort to take him to the Lethbridge jail, Arthur E. Burns escaped from custody at Crossfield by chopping a hole in the wall of the cell he was confined in. The escaped prisoner was arrested in Calgary and sentenced to 18 months for stealing a horse, saddle, and a number of turkeys. It is stated that he had an axe in the temporary jail he was in and with this heaved his way out.

## New French Cannon Has No Recoil: Will Revolutionize War

BRUSSELS.—Lescar says that experiments will begin at Liege, with a new gun which if it fulfills expectations will have world wide bearing on ordnance. The invention is that of a French engineer, Delanere Maze, who will direct the test. There is no recoil when the gun is fired, consequently it is possible to eliminate the brake and slide devices. It will have the same power as other guns of its size, with only one-third of its weight.

## NEWS IN BRIEF

## Sea of Blood Tells of Grim Marine Battle

LONDON.—This is the not the season for fish stories, but a whale slay may be allowed to pass. It is the story of an ocean battle fought at sea with dead and dying monsters of the deep, supposedly the result of a fierce encounter between swordfish and whales, the latter being the defeated army—no way, Captain G. Evered Pease M.R.C., a commissioner in the Gold Coast Colony, is the author of the story which is contained in a letter received from him by his brother C.E. Pease Southampton.

Here is the story as related by Captain Pease:  
On the voyage out the most extraordinary phenomenon was witnessed by us all. Between Sierra Leone and Sekondi we steamed through, for over an hour, a blood-red sea, and saw some hundreds of whales dead or dying on the surface of the water. Some were just able to move slowly along, few if any could move quickly. There must have been a sanguinary battle, supposed to have been put up by the swordfish. It was a most appalling sight, and the extent of the bloody expense must have represented the death of many more whales than were visible. No one on our ship had ever seen or heard of anything approaching such a spectacle before.

Edward O'Connor a farmer, is serving a nine months' sentence in jail at Kingston for infraction of the Ontario Temperance Act. In the meantime his wife and small children are suffering hardships in their lonely home attempting to cope with the winter work of the farm. A prisoner whose release from the county jail is due, having learned the condition of O'Connor's family has made application to serve the remainder of the farmer's sentence in order that the farmer might be sent home.

WOMAN DIRECTED  
Chicago Hold up  
CHICAGO.—A woman bandit, young and well dressed, directed the robbery by two men of \$10,000 worth of furs from Nathan Brodheim's store here last Friday night, pointing a revolver, she backed Brodheim into a closet while two men companions followed themselves.

## Bow Island and Burdett Reviews

There has never in the past been a system of home drying that would compare favorably in convenience with what is known as "drying in glass jars," but it is claimed that this difficulty has now been solved, and that food can be dried in the home jar conveniently and economically than in the "canning jars."

Women prefer their home preserved fruit to factory canned products, not

Chicago Officers Will Carry Small Phone Apparatus

Soon every policeman in Chicago will carry in his pocket a miniature wireless telephone. No matter in what part of the country he is traveling, headquarters can communicate with him instantly. A policeman will be able to receive a message but can't send one. It has the instrument in his hand. It has the antenna which he can place to his ear, and when properly tuned in with headquarters he can hear his message as distinctly as from a call box. The receiving antennae will be in the gins of the policeman's coat. While walking along the street the policeman will suddenly become aware of a little buzzing sound—the signal. He will place the receiver to his ear and get the message.

The city of Rheims may be rebuilt within five years. This is the opinion of Marquis Melchior de Polignac, president of the Co-operative Society for the Reconstruction of Rheims. At the most, he says, the work will not require more than six or seven years.

The amount of work remaining to be done is estimated by the Marquis to cost 1,000,000,000 francs, of which 100,000,000 is for reparations and

The question has recently been raised as to whether the making of milk production records is detrimental to the health of dairy cattle, and whether the risk of disease to pure-breds is sufficient to deter a man who places a high value on his blood stock from being tempted from engaging in the pure-bred business. To the first question the Veterinary Director-General of the Dominion has replied that there is no doubt that intensive feeding to stimulate excessive milk production has a tendency to lower the resistance of the animal to disease, but that it is easy to say, but that if proper precautions are taken against danger of infection there is no reason why record making should interfere with maintenance of health. Without infection no disease of an infectious nature, such as tuberculosis, brucella, etc., can be transmitted, and therefore the question of infection is the question of the Veterinarian, and not of the milk producer.

The Canadian Pacific recently lost by death in England one of their popular sea captains when Captain Ebenezer Cook, R.N.R., late of the Canadian Pacific liner "Empress of France," passed away at his residence at Great Cress

[illegible]

A total of 78,576 immigrants came to Canada in the eighth month since November 8, and by the time the 1931-32 season is over, it is estimated that the total will exceed 100,000. Of the former, 63,296 arrived at ocean ports and 22,279 from the United States. Those who came by water comprised 18,301 from the former class, 4,751 from the latter, 1,000 from the former, 6,028 domestic and 613 miners.

The contingent from the United States embraced 10,663 of the former class, 2,943 laborer, 5,034 mechanics and 1,361 travelers. The decrease compared with last year is 37 per cent.

In the period from 1920 to 1931, 145,149 immigrants came to Canada, of which 122,531 were from the British Isles, 10,000 from the United States, 18,272 from other countries. Hindu and Japanese immigration has been almost nonexistent.

manufacturers that German toys sold in Great Britain below prices which similar goods can profitably made in Britain, in consequence the depreciation of German currency the British board of trade has appointed a committee to consider the question of imposing on such toys special duty under the provisions of the safeguarding of industries act.

A Mali and Empire cable from London says American capital to the extent of 44,600,000 marks (about \$223,000) is involved in a real estate transaction just closed in Berlin, by which the historic Blucher Palace in the Pariser Platz, passes into the hands of an American of Lethish descent named Zmuding, who intends to convert the palace into an office building for an American bank.

ent at Field Will be determined during 1922.

With much more progress than ever before preparing to go into the northern country, the true nature and extent of the country is being determined fairly accurately determined from the 1912, according to Willis J. West, Edmonton, manager of a transportation company, who has been on the steamers on rivers in the far north. Slowly development is what is most noticeable in the north. The stream of people into the new empire of the north east coast, is not so fast as it was in the summer of 1912, nor do the people of the interior have any terrific influx at this time, Mr. West stated.

There is no vast sea to almost beyond the power of the people who have never been there to visualize the country. The only thing his company makes a journey 1000 miles long every trip. Mr. West, while in the country, he said in winter, he cleared it was very difficult to get out of some of New York State nor cold as the Cariboo country. Vegetation in the north country, he says, probably of great size being raised as far as the north country, within 100 miles of the Arctic Circle.

At the present time there are three sugar factories operating in Canada which manufacture from Canadian sugar beets, with annual production of about 35,000,000 pounds. All of the factories are situated in Western Ontario.

Have Tried In Various Ways to Increase Income

Scattered throughout Europe the members of the once proud house of Hapsburg are all living in relatively poor circumstances, some of them in poverty.

Archdukes Eugene and Ferdinand have been permitted by the Swiss Government to remain at Lucerne, it being found after an enquiry that they had nothing to do with Charles III-failed attempt at restoration. Archduke Max and Frederick are living with Archduchess and Josephine in Bavaria; Albrecht resides with his mother, Isabella, at Budapest; Leopold Salvator is staying at a villa near Barcelona; Joseph Ferdinand and Henry Ferdinand have settled down in the imperial hunting lodge at Salsburg, and Archduchess Marie Annunziata lives alone in the chateau.

with more or less indifferent success. Literature in the form of "Memoirs" from various members of the family has been presented to editors, but none of them has shown great enthusiasm to publish the books.

In 1919. All provinces except Manitoba and Alberta showed an increase in production. The production of cream

The price of cheese did not vary much over the two years, averaging 26.20 cents in 1920 and 26.79 cents in 1919. The quantity of factory cheese produced in 1920 was 149,201,855 lbs with a value of \$39,100,872. The two provinces which showed increase in production were Nova Scotia and British Columbia.

of Statistics, states further that there were 3,161 dairy factories operating throughout Canada in 1920, comprising 1,046 creameries, 1,653 cheese factories, 495 combined butter and cheese factories and 123 condenseries. The number of cows which furnished milk to the factories was 1,715,998.

For the 12 months ended Dec. 31, 1920, the quantity of butter exported was 13,361,020 lbs.; of cheese, 142,767,546 lbs.; of milk and cream prepared for export, 1,026,783,783 lbs.; of fresh milk, 1,638,377 gallons; of fresh cream, 1,278,072 gallons. The total value of export dairy products for the year was \$58,345,022.

Companies  
Three of the largest coal and iron properties in the Donetz Basin have

been promised a loan of 25,000,000 gold rubles, or their equivalent. The company is called the South Russian Steel Company.

These companies were formerly operated by English, Belgian and French companies and formed the heart of the Ukrainian industry.

vice did you"—Chicago Tribune.

of the equipment for agricultural extension work in Bulgaria. The school has a trained staff, and courses cover anywhere from a week to a month. The total attendance last year was 23,000.

ence"—headline. Also the leg of chicken, or anything else that will —Ottawa Journal.

agricultural education in Canada and the excellence of the agricultural colleges of the Dominion was given at the Chicago International Livestock Exposition when the Ontario Agricultural College of Guelph, the Manitoba Agricultural College of Winnipeg, and the Macdonald Agricultural College of Quebec covered themselves with glory in the judging contests, winning the first prize in individual standing as well as other awards.

White, with a score of \$91 out of a possible 1,000, secured the premier judging honors. R. E. White, of the same college, finished fifth with a score of \$61, and G. E. Rathby, also of Ontario, was fifteenth in the standing, with a mark of \$31. In the contest for aggregate college honors, the Ontario team was just nosed out by that from Ohio. A survey of the history of the college, however, reveals the fact that White has already on a previous occasion fallen to its representatives.

considered that a small percentage of the total Canadian student body is represented in comparison with the numbers from all the States of the Union. It is concrete proof of the comparatively high quality of Canadian agricultural education and reflects in the most creditable manner upon the Dominion's first pursuit of farming. This expedition, with its competitors which are comprehensive and exhaustive, is regarded in Canada no less than the United States as the criterion of agricultural efficiency and display, and it may justifiably be assumed from these successes that Canadian agricultural colleges take second place

industry as its basis of all progress present and future, and in this appreciation spares no effort or expense in its promotion. Not only is the farmer aided and encouraged in every way by the government, Federal and Provincial, but all possible is effected in the line of education to prepare the farmer for his great destiny and to train him to become the most efficient agriculturalist. At the apex of this training comes the agricultural college.

Agricultural scholarship comes under this head and the agricultural colleges are instituted and partially supported by the provincial governments. Agricultural Instruction Act, of 1911 provided for the payment to the provinces of the sum of ten million dollars in a period of ten years for the purpose of aiding and advancing the farming industry of Canada. It was intended to supplement provincial appropriations and with a view to enabling the provinces to finance and carry out instructional efforts in the interest of agriculture in a more extended and comprehensive manner than would otherwise be possible—to promote better farming methods and encourage agricultural education.

section. Alberta possesses the Alberta Agricultural College as part of the provincial university at Edmonton as well as six agricultural schools in various parts of the province. British Columbia has an agricultu-

College has a reputation for itself and open to any student irrespective of previous education. Now Brunswere has two agricultural colleges and Nova Scotia also establishment. One of them is the Agricultural College at Guelph with more than a thousand students and another is the Agricultural College at Donald College, near Montreal, with nearly eight hundred students, is implemented in Quebec with colleges at Ste. Anne de la Pocatiere and Trappe, Okla. both affiliated with Laval University.

Agricultural colleges in Canada have been so instituted and arranged that the possible number of agricultural institutions in which reach of any boy or girl young aspiring to the pursuit of scientific farming. To meet the needs of the people of the farm and find it impossible to get away to do the longer courses, short, intensive instructional courses are given in

## World Happenings Briefly Told

Islands off the Corsican coast were reported for sale at \$4,000 apiece.

Drivers on strike at the Dominion Coal Company's Mine, Sydney, threw 15,000 men out of work.

A new sale of low chairs in Great Britain has increased the cost of litigation fifty per cent.

Plans for an air service between London and Cork, that would shorten the journey to the American continent by at least a day, are being prepared.

Captain Joseph Howe, ex-governor of the late Hon. Joseph Howe, Nova Scotia statesman, is dead at Port Maitland.

Private cable advice received from the Japanese source intimates that the Yokohama ship bureau has again suspended trading as a result of recent wide fluctuations in prices.

The steamer Aquarius, the first of the Russian relief vessels to leave Philadelphia, has sailed for a Russian port with a full cargo of grain and other food.

The effort to collect a million dollars to create a Woodrow Wilson Foundation, which shall be a permanent memorial to America's war president, has been launched throughout the United States.

It is understood that Hon. W. S. Fielding has been able to examine the general state of the national finances and while there is nothing to justify alarm, his report has impressed upon his colleagues the need for a ruthless policy of economy.

Two prospectors, known as Ellis Nelson and Sydney Madden, were burned to death in their bunk in a cabin at Hyder, Alaska, according to news brought to Prince Rupert from Stewart, B.C. The cabin was destroyed by fire before people realized that anyone occupied it.

Charles H. McKay, president of the Commercial Cable-Postal Telegraph system, announced that the company had just completed a contract with the German Atlantic Cable Company and a German corporation, under the terms of which direct cable communication with Germany will be restored after a lapse of about eight years.

Over 300,000,000 letters, translated into 229 different languages, have been distributed by the British and Foreign Bible Society.

Men glance at the past—especially if she who passed is pretty.

Some men uphold a good thing, and some others attempt to hold it up.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callus comes out without injury to the skin.

## Royalties On Fur Pelts

Wolves Cause Decline of Moose in Manitoba

Royalties collected on fur pelts by the Manitoba Government, totaling \$40,513 last year, the annual report of the game branch department of agriculture shows.

Total revenue collected during the year was \$74,549, which included 10,465 resident game bird permits at \$1 each and 2,816 resident big game permits at \$4 each.

The report states that moose is the only game animal decreasing in the province, mainly due to the ravages of timber and prairie wolves.

A real, sure, dependable remedy that has been out since the past fifty years will surely lift your feet. Putnam's Own Extract is the old reliable corn remedy—it stands the test of time and never fails, 25c everywhere.

A Real Optimist.  
A Capetown correspondent says that barring a general strike in the mines and a deficit of from ten to twenty million dollars in the national treasury the outlook is better than it was.

There is nothing like being able to ignore embarrassing details and see things as one would like them to be.

Expert Cuts for Skins  
It was discovered some years ago that common short-haired cats grew long, thick coats in cold climates.

The idea was taken up by one man, who made a large sum of money by exporting cats to Kanchanka, in Asia.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callus comes out without injury to the skin.

## Wireless Phones Between Trains

Experiment Tried in France Promises Safety for Passengers

Wireless telephone conversations between trains moving at the rate of forty miles an hour and the Paris central station, which have been achieved and hold out a promise of greater safety for passengers, as well as a considerable diminution of intermediate signaling stations.

Antennae constructed on top of an ordinary coach were in constant communication with other antennae between two telegraph poles midway of the experimental area and enabled the use of telegraph wires to carry the messages to the receiving station.

The voice of a train conductor could be heard clearly over a distance of fifty miles by the receiving station in Paris as the train passed each station or railroad siding.

The Nord companies are extending the experiments as far as Calais. Wireless signaling from Paris as far as Rouen has been in use for several months and with complete satisfaction.

Meanwhile the state lines are considering the elimination of obsolete telephonic dispatching.

The perennials of the Antarctic region are the most human of all the wild family, walking upright and firing in communities, quite unafraid of man.

Your cup of joy will never run over if the bartender is allowed to handle the bottle.

## Evening Gown of White Satin and Black Lace

By Marie Belmont

The eternal appeal of black and white still finds new modes of expression, of which a charming example is the evening frock sketched above.

Heavy white satin forms the simple gown, with lustrous neckline and skirt draped slightly up in the back. Black lace covers in soft panels at the sides and covers one arm. A droll circle of white beads outlines the waistline.

A narrow band of crystal beads gives a classic touch to the simply arranged corsage.

## WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to study, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should.

He catches colds which rack his little system, his stomach and bowels get out of order and he becomes fretful and cross. To start against this mother should keep a box of baby's Own Tablets in the house.

They regulate the stomach and bowels, and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## "My Canada"

Entertaining Story Gives Glimpses of Life in Western Canada  
—Although not a new book, there has recently come to the attention of the writer, a very pleasing story by Elinor or Mauden Elliot. "My Canada" is the title, and it is written in the form of a diary, each chapter dealing with the experiences of a young lady who comes to Western Canada from England.

As revealed in the diary, Miss Elliot left her home in England with the two-fold purpose of escaping from the monotony of life in the old country and with the intention of realising an ambition to engage in poultry farming.

At the outset, there is a suggestion that Elinor Mauden Elliot is really merely the pen name of a very clever writer who must have spent the most of her life in the prairie provinces, the characteristics of which she knows so well.

After a glimpse of urban and rural life in Manitoba, highlighted by considerable local color, the reader follows the fortunes of Elinor to Southern Alberta.

Unquestionably the author gleaned her knowledge of ranch life from actual association so truthfully does she draw the picture.

The history of the period in the life of the lovely English girl is revealed in a simple yet fascinating manner, whimsically humorous, which holds the interest without tedium.

In the foreword, Miss Elliot expresses the hope that the story may contribute to a better understanding between Canada and the Motherland.

This worthy motive permeates the pages of the book in quite evident, and whether this Western Empire is the native or adopted country of the reader, certain it is that one's pride and love of Canada will be strengthened by reading this wholesome and captivating story.

Mr. McKib (after having his beans read over to him)—I will not again say that I have been able to keep "The Commandments" of the "The Review" in my mind.

## Irish Roads

The roads we know seem always short. Strange roads seem always very long. I know a thousand Irish roads. And tramped them to a wild bird's nest.

A thrush upon a towering beech. Would give me music for a mile; A blackbird, linnet or goldfinch. Would then alternate for a while.

The Irish roads have borders set With many a well trimmed haw. Fox udder, and fern, and violets. And shaven grass along the edge.

There you will meet the jaunting car, The crib of the cosy cart. The creaks and straddle and the coach With drivers that delight your heart.

The foreign roads are strange and long. And faded eyes must often fill. For sight of long white roads that wind Like ribbons round an Irish hill.

—From Irish and Canadian Poems by Michael A. Carson, with introduction by George H. Ham, published by The Modern Printing Co., 29 Boulevard St., Montreal. Price one dollar.

## Sentence Sinn Feiners

Implication for Men Charged With Theft of Machine Guns

The case of five Sinn Fein men charged with complicity in the theft of a number of machine guns and rifles last November from the Victoria Barracks in London, has been concluded.

Two of them were sentenced to twelve months' imprisonment, one to six months, and the other two were discharged.

Far Frost Bites and Chills—Chillings come from undue exposure to the cold and frostbite, the icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and soothes the pain.

The action of the oil is prompt and its application is extremely simple.

Women earn \$100.00 daily, distributing the wonderful "Medical Adviser," by Dr. Pierce. Unfolds secrets of married happiness, often revealed too late. 1008 pages, cloth-bound book, illustrated with colored plates. Chapters on Mother and Baby, Nursing, Accidents, First Aid, What to do in Sickness. Recalls for \$1.00. Free with instructions to workers. Sales everywhere. Enclose 10c to help pay postage and packing. Medicine Chest, 618 Washington Street, Buffalo, N. Y.

Sleep is the great nourisher of infants, and without peaceful sleep the child cannot thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and they are so simple and effective for restoring the health of a worn-out infant.

If you were to count rapidly, without stopping for a moment, it would take almost two and a half days to reach a million.

Relief from Asthma. Persons suffering from that extremely trying trouble, asthma know what it is to live long with all their hearts for relief from that tyrant. No one else can do it, but they can do it with Dr. Williams' Asthma Remedy at hand, however.

Clifton Dingham, the writer of "The Old Maid" and other popular novels, often writes as many as 50 verses without rising from his desk.

Heart Would Beat LIKE A TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a man catches cold in the region of the heart, and then your heart ships like a trip hammer, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, chills, sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will
